

Keeping your cement plant running smoothly doesn't have to be a daunting task. Klüber has lubricants for every area of your cement plant, which means increased machine uptime and long-term reliability. Our application-specific lubricants can help to optimize operational reliability, cut servicing costs, conserve energy, extend maintenance intervals and reduce lubricant consumption.

KLÜBER
LUBRICATION

Lubrication is our World

As maintenance demands increase, new lubricants are needed to address plant requirements and ensure trouble-free equipment operation. Let Klüber oils and greases keep your heavy industry running smoothly. See how choosing the right lubrication solution can improve performance and impact your bottom line. Visit www.klubersolutions.com/cement

From **quarry** to **truck**
Klüber **lubricates** your operation.
